EDUCATION

M. H. Saboo Siddik College Of Engineering

B.E. in Information Technology, CGPA: 8.36

Mumbai, MH

May 2024

PROJECTS

Bellaviu (Rabs) | *React, Express, MySQL*

June 2025

- Built an admin dashboard for a vacation rental management platform with intuitive sidebar navigation, implementing data-driven UI components, CRUD operations, and real-time data integration from a MySQL database for efficient property and booking management.

Camporia | *React* | [Link](#)

March 2025

- Developed a responsive front-end booking platform for campsite discovery, enabling users to search listings by name and price with client-side routing.
- Implemented login and sign-up form validation, enforcing email format checks and password constraints, with authentication planned for future integration.
- Optimized UI structure and navigation across 4+ pages to improve usability, page flow, and basic SEO performance.

Portfolio | *React* | [Link](#)

August 2024

- Developed and deployed a personal portfolio website using React and Tailwind CSS, featuring responsive design, smooth navigation, animations, and version control via GitHub, hosted on Netlify.

EXPERIENCE

Software Developer

October 2025 – Present

Rabs Net Solutions Pvt. Ltd.

Jogeshwari, Mumbai

- Developing a real estate web platform **Fortune DXB**, implementing CRM-style administrative features with a primary focus on frontend development and backend integrations, including the official use of AI tools (Claude AI).
- Continuing development of the **My Business Profile** application by enhancing React Native functionality and contributing to web features built with Next.js.
- Managing routine production maintenance, including feature updates, bug fixes, and minor server migrations.

Web Developer Intern

April 2025 – September 2025

Rabs Net Solutions Pvt. Ltd.

Jogeshwari, Mumbai

- Contributed to multiple client-facing CRM systems by developing reusable frontend modules using React, Next.js, MUI, CSS, Context API, and REST APIs.
- Supported backend development using Node.js, Express, and MySQL, assisting with API logic and data integration across applications.
- Delivered client projects including a dynamic quiz platform and a React Native application, while actively participating in testing, bug resolution, and iterative feature enhancements across all projects.
